

AW2000 • All Weather Enclosure

When your application is outdoors or any place where dust and moisture are a problem, the AW series is the ideal solution. The UL® listed enclosure comes in neutral grey, and provides UV and weather protection. It is

designed to be surface-mounted on exterior walls, and may be padlocked. The AW2000 remains open during use, but is completely weatherproof when closed.

Accepts two ModuLine Inserts (page 7). Specify type in place of each ♦ in model number below.

AW20♦♦

Nominal size: 10"x6½"x3¾"

Custom-punched back panel available.

Meets NEMA 3 when closed.
