

Accessories and Insert labeling

Accessories will help you get the most out of our products. You may use adaptors and hole plugs to get custom results with stock panels. The addition of the LS series adaptor creates a versatile solution for mounting the Leviton® QuickPort® series in an FMCA series

Basic and Custom labels

The Basic white label with Mystery logo is available on any standard or plus ModuLine or DuoLine Insert. Add your 10-point sans serif text over each connector position in black, red, green, or blue. Add interest to your installation with color text or graphics. Include logos, brackets, color-coding, diagrams, or warnings on any ModuLine or DuoLine insert. It's the perfect complement to a custom laser-cut insert. Logos or other furnished graphics require a one-time setup charge. *Call for details.*

Custom labels are also available for the XP kit and FP601, as well as AW2000 custom back panels.
