

# Backboxes

Only Mystery Electronics Backboxes ensure full compatibility with our products. Backboxes conform to NEMA® standards and are UL® listed. Alignment labels aid proper installation. Trade-size knockouts for conduit system connections are included. Appropriate mounting holes are pre-punched and tapped for easy trim-out. **Backboxes are required in concrete or masonry**

**and when conduit systems are used.** To install floor boxes in a concrete slab, see AppNotes AN11 and AN12. Backboxes are also recommended for raised wooden floor or hollow wall construction, though site conditions may make them optional. Please see our website for the appropriate TechNote, or call us for application help.

## Floor mount

<b>BB1000</b>	for FMCA1000 series (page 4) 6"x6"x6" - see <i>TechNote TN12</i>
<b>BB2000</b>	for FMCA2000 series (page 5) 12½"x6"x4" - see <i>TechNote TN12</i>
<b>BB2000D</b>	for FMCA2000 series (page 5) 12½"x6"x6" - see <i>TechNote TN12</i>
<b>BB3000</b>	for FMCA3000 series (page 5) 12½"x12"x4" - see <i>TechNote TN12</i>
<b>BB3000D</b>	for FMCA3000 series (page 5) 12½"x12"x6" - see <i>TechNote TN12</i>
<b>BBTC1</b>	for TC10 series (page 8) 6"x4"x4" - see <i>TechNote TN25</i>
<b>BBTC2</b>	for TC20 series (page 8) 10½"x4"x4" - see <i>TechNote TN25</i>
<b>BB40</b>	discontinued, substitute BB1000
