

MC40 Medium Duty Floor Box

MC80 Medium Duty Floor Box

BB40 Backbox - for MC40

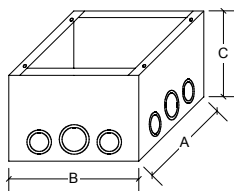

BB80 Backbox - for MC80

- **Authentic Mystery Electronics features in a “box sale” package.**
- **MC40 prepunched for four (4) Switchcraft D*F or equal. Mounts on BB40 backbox.**
- **MC80 prepunched for eight (8) Switchcraft D*F or equal. Mounts on BB80 backbox.**
- **Simplified design fits many basic applications, and can be stocked for retail.**
- **Textured black steel covers.**
- **Two cable slots allow hinged door to be closed while in use. No tangled wires underfoot.**
- **Installs on carpeted or hard surface floors.**

The MC Series MC40 and MC80 offer all the benefits of a flush mounted floor box where the more advanced and labor saving features of the FMCA Series are not required. Textured black finish is attractive and durable. Simplified design fits many basic applications, making it ideal for a “box sale” or where labor is not included in the installed cost. Accepts connector types compatible with the Switchcraft D*F hole spacing. Mounting hardware is provided, complete with high security cover mounting screws and hex type wrench.

Note: The MC Series is not recommended for “specification grade” installations. When full featured flexibility, installation labor and finish choices are prime factors, we strongly encourage the use of our FMCA series.

Backboxes

Dimensions:
nominal in inches

	A	B	C
BB40	6	6	4
BB80	12	6	4

Dimensional Data *Nominal*

Door/Cover

MC40: 8”L x 8”W
MC80: 14”L x 8”W

Basket

MC40: 4.5”L x 4.75”W x 2.5”D
MC80: 10.25”L x 4.75”W x 2.5”D

All models have knockout pattern shown on all four (4) sides;
2 each 1/2 & 3/4” combination
1 each 3/4 & 1” combination
trade size knockouts @ 1.62 o.c.

A & E Specifications

The **MC40/MC80** floor box shall consist of a Door/Cover and a basket with an integral Connector Mounting Panel. Door/Cover shall be of 11 gauge steel with a textured polymer (non paint) black finish, with radiused corners on an integral self trimming ring that mounts virtually flush with the surrounding surface, and shall be secured with security socket head screws. Basket shall be of 16 gauge steel with satin black finish. MC40 Door/Cover shall be 8”L x 8”W. MC40 Basket shall be 4.5”L x 4.75”W x 2.5”D, shall accommodate four (4) _____ (specify type) connectors, and shall mount on manufacturer’s backbox (BB40). MC80 Door/Cover shall be 14”L x 8”W. MC80 Basket shall be 10.5”L x 4.75”W x 2.5”D, shall accommodate eight (8) _____ (specify type) connectors, and shall mount on manufacturer’s backbox (BB80).

The **BB40/BB80** backbox shall be heavy gauge cold rolled steel, Underwriters Laboratory listed, and conform to N.E.M.A. standards. Backbox shall have 12 each combination knockouts (1/2” to 1” trade size) spaced uniformly on the sides and ends. Backbox shall have disposable heavy gauge metal cover, attached with screws, for protection during installation rough-in. The cover mounting flange shall have 4 holes tapped for 8/32 screws to accommodate mounting of Mystery Electronics MC series. Backbox shall be coated overall with gray urethane. BB40 shall measure 6”L x 6”W x 4”D nominal dimension. BB80 shall measure 12”L x 6”W x 4”D nominal dimension.
