### To order or specify:

Please contact us (toll free) or visit our web site for latest information. We will do our best to make sure you get the solution that is right for you. Variations are limited only by imagination.

Have you ever needed a floor or wall box that was just beyond what was in the catalog or a slightly more customized version? In response to your requests, we offer several new options for FMCA2000 and FMCA3000 series floor boxes, to make them even more flexible and offer more alternatives for those special applications. The foundation for these exciting new options is the HandHold basket option.

Used alone or in combination with options, this feature helps provide unique solutions for difficult applications.

- Cable pass through or pigtail / fan out storage at a mixer location
- Wall box for horizontal mounting of large connectors
- In wall CD player enclosure
- Patch panel for Cat 5 distribution
- Accommodation for larger connectors
- Allows for future possibilities where long term purpose is undetermined
